INDEPENDENT AUDITORS' REPORT

Honorable Board of Directors
Town of Babylon Industrial Development Agency
Babylon, New York

Report on Financial Statements

We have audited the accompanying financial statement of the business-type activities of the Town of Babylon Industrial Development Agency (the "Agency"), a component unit of the Town of Babylon, New York, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents. The financial statements for the year ended December 31, 2012 were audited by another auditor who expressed an unmodified opinion on the financial statements dated March 18th 2013.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Agency's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Agency, as of December 31, 2013, and the respective changes in financial position, and cash flows thereof for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and schedule of funding progress for other postemployment healthcare costs be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements of the Agency taken as a whole. The accompanying schedule of conduit debt, exemption information and employment information is presented for purposes of additional analysis and is not a required part of the financial statements. The schedule of conduit debt, exemption information and employment information is the responsibility of management and has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 25, 2014, on our consideration of the Agency's internal control and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. That report is an integral part of the audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control and compliance.

REQUIRED SUPPLEMENTARY INFORMATION
Management's Discussion and Analysis

TOWN OF BABYLON INDUSTRIAL DEVELOPMENT AGENCY
MANAGEMENT'S DISCUSSION AND ANALYSIS
Years Ended December 31, 2013 and 2012

This section presents management's analysis of the Town of Babylon Industrial Development Agency's (the "Agency"), a component unit of the Town of Babylon, New York (the "Town") financial condition and activity for the year ended December 31, 2013. Please read this information in conjunction with the financial statements.

FINANCIAL HIGHLIGHTS

- The assets of the Agency exceeded its liabilities at the close of 2013 by \$1,039,423 (net position).
- The Agency's total net position increased by \$603,141 (or 138%) in 2013.
- Unrestricted net position represents the portion available to maintain the Agency's continuing obligations. As of December 31, 2013, the unrestricted portion of net position for the Agency was \$1,039,423

OVERVIEW OF THE FINANCIAL STATEMENTS

Management's Discussion and Analysis ("MD&A") serves as an introduction to the basic financial statements and supplementary information. The MD&A represents management's examination and analysis of the Agency's financial condition and performance. Summary financial statement data, key financial and operational indicators used in the Agency's strategic plan, operating plan, bond covenants and other management tools were used for this analysis.

The financial statements report information about the Agency, which is an enterprise-type fund. The Agency applies full accrual accounting methods as used by similar business activities in the private sector. The statements offer short and long-term financial information.

The financial statements include statement of net position, statement of revenues, expenses, and changes in net position, statement of cash flows and notes to the financial statements. The statement of net position includes all of the Agency's assets and liabilities and provides information about the nature and amount of investments.

The statement of revenues, expenses, and changes in net position presents the results of the Agency's activities over the course of the year and information as to how the net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. This statement also provides information about whether the Agency has successfully recovered its costs through its user fees and other charges, profitability and credit worthiness.

The statement of cash flows presents changes in cash and cash equivalents resulting from operating and other activities.

The notes to the financial statements provide required disclosures and other information that is essential to a full understanding of material data provided in the statements. The notes present information about the Agency's accounting policies, significant account balances and activities, material risks, obligations, commitments, contingencies and subsequent events, if any.

TOWN OF BABYLON INDUSTRIAL DEVELOPMENT AGENCY
MANAGEMENT'S DISCUSSION AND ANALYSIS
Years Ended December 31, 2013 and 2012

FINANCIAL ANALYSIS OF THE AGENCY

One of the most important objectives of the financial analysis is to determine if the Agency, as a whole, is better or worse off as a result of the year's activities. The statement of net position and the statement of revenues, expenses, and changes in net position provide useful information in this regard. The statements report the net position of the Agency and changes in these net positions. The amount of net position, the difference between total assets, liabilities is a significant measure of the financial health or financial position of the Agency. Over time, increases or decreases in the Agency's net position is one indicator of whether its financial health is improving or deteriorating. However, other non-financial factors, such as changes in economic conditions, population growth, zoning, and new government legislation or changes to existing government legislation should be considered in evaluating the financial condition of the Agency.

The following comparative condensed financial statements and other selected information serve as the financial data and indicators for management's monitoring and planning.

Net Position

A summary of the Agency's condensed statements of net position at December 31, is presented as follows:

	2013	2012	2011

Operating Results

The Agency's condensed statements of revenues, expenses and changes in net position at December 31, are presented as follows:

	2013	2012	2011
Operating Revenues			
Charges for services	\$ 1,328,352	\$ 683,460	\$ 648,935
Total Operating Revenues	<u>1,328,352</u>	<u>683,460</u>	<u>648,935</u>
Operating Expenses			
Contractual goods and services	879,238	741,938	665,321
Total Operating Expenses	<u>879,238</u>	<u>741,938</u>	<u>665,321</u>
Operating Income	<u>449,114</u>	<u>(58,478)</u>	<u>(16,386)</u>
Non-Operating Income	<u>154,027</u>	<u>53,888</u>	<u>118,285</u>

Net Position at End of Year	<u>\$ 1,039,423</u>	<u>\$ 436,282</u>	<u>\$ 440,872</u>

The Agency's operating revenues increased \$644,892 from \$683,460 in 2012 to \$1,328,352 in 2013, an increase of 94%. This is due to an increase in Agency projects and closing fees. The Agency's expenses increased from \$741,938 in 2012 to \$879,238 in 2013, an increase of \$137,300 or 19%. This is primarily due to increases in payroll and related employee benefit costs and economic development/marketing costs in an effort to obtain new projects.

The Agency's revenues increased \$34,525, or less than one percentage point, from \$648,935 in 2011 to \$683,460 in 2012. The Agency's expenses increased from \$665,322 in 2011 to \$741,938 in 2012, an increase of \$76,616 or 12%. This was primarily due to increases in payroll and related employee benefits costs and economic development/marketing costs in an effort to obtain new projects.

ECONOMIC FACTORS AND NEXT YEAR'S PLAN

The overall mission of the Agency is to promote, attract and encourage well planned economic growth in the Town.

At the Babylon Industrial Development Agency we work at the intersection between local business and local government. By offering tax savings incentives and fast track permit processing for prospective and existing enterprises, we stimulate sustainable economic development and revitalization within the Town of Babylon. This growth promotes job creation, additional economic activity for local businesses, Town beautification, rising property values, and a higher quality of life within the Town - which services all residents and businesses.

ECONOMIC FACTORS AND NEXT YEAR'S PLAN (continued)

The Agency plans to continue and expand its assistance to the businesses located in the Town of Babylon through:

- Federally tax-exempt and taxable revenue bonds
- Local property tax abatement and exemptions
- Sales tax exemptions for construction materials and equipment
- Mortgage recording tax exemptions

The Agency has an aggressive marketing strategy that concentrates on business retention, expansion and attracting new businesses. The marketing activities reviewed and approved by the Board, include site visits to strategic industries, radio and television ads, print ads, brochures and direct mailing and extensive networking with business professionals. This comprehensive marketing plan is designed to brand Babylon Town as a good place to do business, and to inform the business public of the various economic incentives, including the Agency, that are available to them.

TOWN OF BABYLON INDUSTRIAL DEVELOPMENT AGENCY
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

1. Summary of Significant Accounting Policies

Organization

The Town of Babylon Industrial Development Agency (the "Agency"), was created as a New York State public benefit corporation. The Agency was established on April 10, 1973 pursuant to Code Section 907-a of the New York State General Municipal Law. The Board of Directors has complete responsibility for approval and adoption of policies of the Agency and accountability for fiscal matters. The Board of Directors appoints the Executive Director of the Agency who is the Chief Executive Officer. The Agency is a quasi-governmental, tax-exempt agency that was created to promote the economic welfare, recreation opportunities and prosperity of the inhabitants of the Town of Babylon. The Agency provides companies with the following incentives:

- Federally tax-exempt and taxable revenue bonds
- Local property tax abatement and exemptions
- Sales tax exemptions for construction materials and equipment
- Mortgage recording tax exemptions

Reporting Entity

The financial reporting entity includes all functions and activities over which the appointed officials exercise responsibility. No other governmental organization has been included or excluded from the reporting entity. The governing body of the Town of Babylon appoints the Agency's Board of Directors which results in interdependency with the Town of Babylon. Accordingly, the Agency has been determined to be a component unit of the Town of Babylon.

Measurement Focus/Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The Agency uses the economic resources measurement focus and the accrual basis of accounting. Revenue is recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. The financial statements of the Agency have been prepared in conformity with accounting principles generally accepted in the United States, as prescribed by the Governmental Accounting Standards Board ("GASB"). GASB is the primary standard-setting body for establishing governmental accounting and financial reporting principles.

The financial statements include statement of net position, statement of revenues, expenses, and changes in net position, and statement of cash flows.

Cash and Cash Equivalents

For purposes of reporting the statement of cash flows, cash equivalents are defined as short-term highly liquid investments. The statement of cash flows presented uses the direct method.

TOWN OF BABYLON INDUSTRIAL DEVELOPMENT AGENCY
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

1. Summary of Significant Accounting Policies (continued)

Prepaid Expenses

Prepaid expenses represent various Agency expenses paid in advance, including salary costs, and insurance.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflow of resources, represents a consumption of net position that is applicable to a future reporting period(s) and therefore will not be recognized as an outflow of resources (expense/expenditure) until then. The Agency has no items qualifying for reporting in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and therefore will not be recognized as an inflow of resources (revenues) until that time. The Agency has no items qualifying for reporting in this category.

Accounts Receivable

Accounts receivable include amounts due from businesses for project fees and legal and administrative fees incurred. These accounts receivable are recorded and revenues are recognized as earned or as specific expenditures are incurred. Accounts receivable also includes uncollected payment in lieu of taxes (PILOT) billings due to other governments. All accounts receivable are deemed collectible; therefore no allowance account has been established.

Penalties and Interests Receivable

The Agency assesses penalties and interest on late PILOT payments. Due to a variety of factors the timing of the collection of these monies is unknown. Accordingly, the Agency recognizes penalties and interest assessment when received.

Due to Other Governments

The Agency bills and collects payment in lieu of taxes (PILOTs) from the project properties. Payments collected are not considered revenues of the Agency and are disbursed to the appropriate taxing jurisdictions. Due to other governments consists of these PILOT billings that have been collected but not yet disbursed and uncollected PILOT billings.

Compensated Absences

Agency employees earn vacation and sick leave in varying amounts. In the event of separation from service (except termination for cause), employees are paid for accumulated unused vacation and sick leave subject to certain limitations. The liability for these compensated absences is recorded as current and non-current obligations in the statements of net position.

Other Postemployment Benefits

In addition to providing pension benefits, the Agency provides health insurance coverage, including reimbursement of Medicare Part B premiums, and survivor benefits for retired employees and their dependents. Substantially all of the Agency's employees may become eligible for these benefits if they reach normal retirement age while working for the Agency as well as meet certain years of service requirements.

Health care benefits are currently provided by the New York State Health Insurance Program NYSHIP (Empire Plan) whose premiums are based on the benefits paid throughout the State during the year.

The Agency recognizes the cost of providing benefits by recording its share of insurance premiums as an expense in the year paid. The liability for these other postemployment benefits payable is recorded as a long-term liability in the statement of net position. The current year increase in the liability is based upon the most recent actuarial report.

Net Position Classification

In the financial statements, equity is classified as net position, and can be displayed in three components:

Net investment in capital assets – Consists of capital assets including, restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributed to the acquisition, construction or improvement of those assets.

Restricted net position – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

Unrestricted net position - All other categories of net position that do not meet the definition of "restricted" or "net investment in capital assets"

When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, then unrestricted resources as needed. The Agency currently has an unrestricted net position.

Revenue Recognition

The Agency's primary source of operating revenue is from straight lease fees and bond issuances fees, which are computed on a project basis as a percentage of the total costs and savings. Fees are recorded as income, when earned, at the time of closing, unless otherwise specified.

Advertising

The Agency follows the policy of charging the costs of advertising to expense as incurred. Advertising expense for the years ended December 31, 2013 and 2012 totaled approximately \$95,193 and \$64,861 respectively.

December 31, 2013 and 2012

1. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Reclassifications are made to the prior year's financial statements whenever necessary to conform to current year's presentation. Such reclassifications have had no effect on change in net position as previously reported.

New Pronouncements

The Agency has adopted all of the current statements of the GASB that are applicable. Effective with the financial report for the year ended December 31, 2013, the Agency implemented GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, in fiscal year ended December 31, 2013. This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. There are no items qualifying for deferred outflows or deferred inflows of resources.

Subsequent Events

Management has evaluated subsequent events through the date of the report, which is the date the financial statements were available to be issued.

2. Cash and Cash Equivalents

Cash and cash equivalents consist of funds deposited in interest bearing accounts.

The Agency's investments are governed by a formal investment policy. The Agency's monies must be deposited in FDIC-insured commercial banks or trust companies located within New York State.

The Agency is authorized to use certificates of deposit, and money market deposit accounts. Permissible investments include certificates of deposits, obligations of the United States, obligations of the State of New York, repurchase agreements, and obligations of agencies of the federal government where principal and interest are guaranteed by the United States.

Collateral is required for demand deposits and time deposits accounts at 102% of all deposits not covered by federal deposit insurance. Obligations that may be pledged as collateral include obligations of the United States and its agencies and obligations of the State and its municipalities and school districts. The Agency's collateral agreements are based on the Agency's available balance.

TOWN OF BABYLON INDUSTRIAL DEVELOPMENT AGENCY
NOTES TO FINANCIAL STATEMENTS
December 31, 2013 and 2012

2. Cash and Cash Equivalents (continued)

Custodial Credit Risk – Deposits/Investments – Custodial credit risk for deposits exists when, in the event of the failure of a depository financial institution, the Agency may be unable to recover deposits, or recover collateral securities that are in possession of an outside agency. Custodial credit risk for investments exists when, in the event of the failure of the counterparty, the Agency will not be able to recover the value of its investments or collateral securities that are in possession of an outside party.

Deposits are required to be disclosed as exposed to custodial credit risk if they are not covered by depository insurance, and the deposits are either:

- Uncollateralized,
- Collateralized with securities held by the pledging financial institution, or
- Collateralized with securities held by the pledging financial institution's trust department or agent, but not in the Agency's name.

At December 31, 2013, the Agency's cash and cash equivalents were insured by the Federal Depository Insurance Corporation or collateralized by securities held in the pledging bank's trust department in the Agency's name.

3. Accounts Receivable

As of December 31, 2013 and 2012, the Agency's receivables were \$561,958 and \$717,503, respectively.

4. Revenues

The Agency collects a one-time non-refundable fee of \$1,500 per application.

The Agency typically collects from the applicant a fee set by the Agency not to exceed an amount equal to 1% of the total project costs payable at closing.

Administrative fees pertain to project related services such as mortgage modifications, amendments to leases and termination lease agreements.

The following is a detail of the fee and service income received for the years ended December 31:

	<u>2013</u>	<u>2012</u>
Closing Fee Income	\$ 1,217,004	\$ 608,893

4. Revenues (continued)

Other Income

Other income represents funds that have been remitted to the Town of Babylon, Suffolk County, School Districts and various special taxing districts. A contingent liability that was provided in prior years totaling \$150,000 has been reversed and recognized as other income in the current year.

5. Conduit Debt Obligations, Industrial Revenue Bonds and Note Transactions

The Agency has at times, issued Industrial Revenue Bonds to provide financial assistance to private sector entities for the acquisition and construction of industrial and commercial facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the Agency, the Town, nor any political subdivision thereof, is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of December 31, 2013 and 2012, there were 4 and 5, series of Revenue Bonds and Notes outstanding, with an aggregate principal amount payable of \$50,062,942 and \$59,767,724, respectively.

6. Lease Commitments

The Agency assists private-sector companies (the "companies") with the acquisition of industrial and commercial facilities deemed to be in the public interest. Upon closing on the properties, the Agency takes title as a nominal owner (which allows the Agency to pass through tax and other incentives) and the companies take title as beneficial owners. The Agency then leases the properties to the companies for a negligible amount, if any. The lease terms usually expire in conjunction with the payments in lieu of taxes of the companies. The leasing transactions are not recorded in the accompanying financial statements of the Agency.

7. Related Party Transactions

The Agency is a component unit of the Town of Babylon. Office and storage space is provided to the Agency by the Town of Babylon. As of the date of this report, the lease is in effect which will expire in December 31, 2014 and the Agency is paying the Town of Babylon \$3,925 a month for the rental of the space. The lease commitment for 2014 totals \$47,100.

8. Postemployment Benefits (Obligations for Health Insurance)

In the basic financial statements, the cost of postemployment healthcare benefits, like the cost of pension benefits, generally should be associated with the periods in which the cost occurs, rather than in the future year when it will be paid. The Agency recognizes the cost of postemployment healthcare in the year when the employee services are received, and provides information useful in assessing potential demands on the Agency's future cash flows.

Plan Description

The Agency's employees are covered under the Town of Babylon's defined other postemployment benefits plan. Per the contract with employees, the Agency will pay the premium costs for medical insurance coverage (currently provided by through the New York State Empire Plan and HIP) and reimburse the Medicare Part B premiums at retirement for the retiree and covered spouse provided the employee has met certain eligibility requirements. Eligibility and the Agency's cost share vary upon employee designation and date of hire as described below.

For Civil Service Employees Association members, eligibility requirements for coverage upon retirement are: five consecutive years of service with the Agency and has attained the age of 55 years. The Agency will contribute 100% of the premium for these eligible employees hired prior to November 1, 2009 and 85% of the premium for those hired after November 1, 2009.

For defined administrative personnel eligibility requirements for coverage upon retirement are: five consecutive years of service with the Agency and has attained the age 55 for those hired prior to November 1, 2009 and for those hired after November 1, 2009 twenty-five years of service and have attained the age of 55 years. The Agency will contribute 100% of the premium for eligible retired administrative employees.

The number of participants as of January 1, 2013, the effective date of the OPEB valuation, is as follows:

Active employees	4
Retirees	2
Spouses of retired employees	1

The Town of Babylon, as administrator of the plan, does not issue a separate report.

There have been no significant changes in the number of employees or the type of coverage since that date.

Funding Policy

The Agency currently pays for other postemployment benefits on a pay-as-you-go basis.

Annual Other Postemployment Benefit Cost and Net Obligation

The Agency's annual other postemployment benefits ("OPEB") cost (expenses) is calculated based on the annual required contribution of the employer ("ARC"). The Agency has elected to calculate the ARC and related information using the alternative measurement method for employers in plans with fewer than one hundred total plan members.

The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

* Based on an actuarial valuation as of January 1, 2013

The Agency's annual other postemployment benefit cost is calculated based on the annual required contribution (ARC) of the employer, an amount which is actuarially determined. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

The unfunded actuarial accrued liability for the Agency for the year ended December 31, 2013 and December 31, 2012 amounted to \$1,084,826 and \$1,063,128, respectively.

Actuarial Methods and Assumptions

The projection of future benefits for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of future events far into the future. Amounts determined regarding the funded status of a plan and the employer's annual required contributions are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term liability in actuarial accrued liabilities, consistent with the long-term perspective of the calculations.

In the January 1, 2013 actuarial valuation, the liabilities were computed using the projected unit credit cost method and level percentage of projected payroll of active plan members on a closed basis. The actuarial assumptions utilized a 4.00% discount rate and a 2.50% payroll growth rate. The valuation assumes a 9.0% (pre 65) and a 7.5% (post 65) healthcare cost trend for 2013, with an ultimate medical trend rate of 5% to be reached in 2017 for both pre and post 65. The remaining amortization period at December 31, 2013 was twenty-three years.

9. Litigation

The Agency is subject to litigation in the ordinary conduct of its affairs. Management does not believe, however, that such litigation, individually or in the aggregate, is likely to have a material adverse effect on the financial condition of the Agency.

10. New Pronouncements

The Governmental Accounting Standards Board (GASB) has issued Statement No. 68 *"Accounting and Financial Reporting for Pensions"* - an amendment of GASB Statement No. 27. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities.

The Governmental Accounting Standards Board (GASB) has issued Statement No. 69 *"Governmental Combinations and Disposals of Governmental Operations"*. The statement establishes accounting and financial reporting standards related to governmental combinations and disposals of governmental operations. As used in this Statement, the term *government combination* includes a variety of transactions referred to as mergers, acquisitions, and transfers of operations. The requirements of this statement are effective for government combinations and disposals of government operations occurring in financial reporting periods beginning after December 15, 2013, and should be applied on a prospective basis.

10. New Pronouncements (continued)

The Governmental Accounting Standards Board (GASB) has issued Statement No. 70 *"Accounting and Reporting for Nonexchange Financial Guarantees"*. The objective of this Statement is to improve accounting and financial reporting by state and local governments that extend and receive nonexchange financial guarantees. The provisions of this Statement are effective for reporting periods beginning after June 15, 2013.

The Governmental Accounting Standards Board (GASB) has issued Statement No. 71 *"Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No.68"*. The objective of this Statement is to improve accounting and financial reporting for a governmental financial reporting entity by resolving conflicting guidance that resulted from the issuance of two pronouncements, Statements No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, and No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*. The provisions of this Statement should be applied simultaneously with the provisions of Statement 68.

The Agency is currently evaluating the impact of the above pronouncements.

OTHER REPORTS

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED UPON THE AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Honorable Agency Board
Town of Babylon Industrial Development Agency
Babylon, New York

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statement of the business-type activities of the Town of Babylon Industrial Development Agency (the "Agency"), a component unit of the Town of Babylon, New York, as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated March 25, 2014.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Agency's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Agency's internal control or on compliance. This report is an integral part of the audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE
WITH AGENCY INVESTMENT POLICY

Honorable Agency Board
Town of Babylon Industrial Development Agency
Babylon, New York

We have examined the Town of Babylon Industrial Development Agency's (the "Agency"), a component unit of the Town of Babylon, New York, and compliance with the Agency's investment policy during the period January 1, 2013 through December 31, 2013. Management is responsible for the Agency's compliance with those requirements. Our responsibility is to express an opinion on the Agency's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the Agency's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the Agency's compliance with specified requirements.

In our opinion, the Agency complied, in all material respects, with the aforementioned requirements during the period January 1, 2013 through December 31, 2013.

This report is intended solely for the information and use of the Board, audit committee, management of the Agency, Authority Budget Office, and the New York State Comptroller's Office and is not intended to be and should not be used by anyone other than these specified parties.
